Remarkable Story Told Concerning Ina Coolbrith, Librarian for Bohemian Club.

MISS MINNIE DYER MAKES ALICE DYER OTIS GOES A DEFENSE FOR TO MANILA TO FIND ACCUSED CAPTAIN OTIS. HER HUSBAND IN PRISON.

PONCE, Aug. 10.—A hurricane struck here at 5 o'clock Tuesday morning and lasted until 3 p. m. The rivers overflowed, flooding the town. It is estimated that 200 persons were drowned.

The town and port are total wrecks. It is believed the damage done will amount to over \$500,000.

No news has been received from the interior since the storm broke.

HUNDRED PERSONS PERISH.

ST. THOMAS, D. W. I., Aug. 10.—The island of Montserrat, British West Indies, was completely devastated by a hurricane Monday. All the churches, castles and villages were destroyed, and nearly 100 persons were killed. In addition many were injured and rendered homeless, and terrible distress exists among the sufferers.

TURKS ISLAND ESCAPES.

KINGSTON, Jamaica, Aug. 10.—Turks Island reports that the cyclone passed during the night after doing trifling damage, and that the disturbance is apparently progressing northward towards the American coast.

ANOTHER CYCLONE COMING.

WASHINGTON, Aug. 10.—The Weather Bureau issued the following:

Noon.—Hurricane central north of the eastern extremity of Cuba moving northward, and probably reaching northward, South Atlantic and Cuban shipping advised to remain in port.

WILLIAMS, Acting Chief.

GUADALUPE DEVASTATED.

PARIS, Aug. 10.—Advises from La Pointe a Pitre, island of Guadeloupe, say the cyclone did enormous damage to the extent of that island, a number of coffee and cocoa estates being devastated. Le Mourie, a suburb, was half destroyed. There were a number of fatalities.

St. Jean advises say the cyclone caused badly damaged and goods stored there. It passed northward to Dominica and thence to Cape Haytien and the eastern end of Cuba.

THE STRICKEN PORTO RICANS.

WASHINGTON, Aug. 10.—The Secretary of War today received the following report from the island of Porto Rico, regarding the damage done by the cyclone of last Tuesday:

"SAN JUAN, Porto Rico, Aug. 9.—Hurricane of extreme violence passed over Porto Rico yesterday morning, causing the loss of many lives and property. Some quartersmaster property damaged. No personal injuries reported, but all wires are down. No injury to shipping was reported. Two schooners sunk, two sailboats drowned. San Juan lights temporarily disabled.

"Cable reports from Ponce say all shipping is ashore. Custom house shops badly damaged and goods stored there. Messengers from two interior ports of barracks unroofed and considerable property damaged. The loss by inhabitants is very great and extreme suffering must result. The last hurricane we suffered in this way was in 1875, causing loss of houses, fruit and provisions, there was famine.

"I would suggest public notice in the United States to the effect that contributions of food, clothing and money for the destitute will be received with the greatest gratitude and will be applied strictly to relief of destitute. Have appointed a board to supervise distribution. There are many thousands of families who are entirely homeless and great distress must follow.

"DAVIS, Commanding."

SEVENTY-FOUR DEATHS KNOWN.

LONDON, Aug. 10.—The Governor of the Leeward Islands, Sir Francis Blomfield, confirmed the dispatch from St. Thomas, D. W. I., to the Associated Press, announcing the devastation caused by the hurricane on the island of Montserrat, says seventy-four deaths are already known.

He adds that twenty-one persons were killed at the island of Nevis. The hurricane was not so severe at Antigua. One death is reported there, many persons have been rendered homeless. Other presidences of the Leeward Islands have not reported the damage done.

DETAILS OF THE CALAMITY.

FORT DE FRANCE, Martinique, Aug. 10.—The authorities in the island of Guadeloupe are still without news from the interior owing to the interruption of telegraphic communication on account of the hurricane.

But other advices which have reached Pointe a Pitre say the coffee crops have been nearly destroyed. At Pointe a Pitre seven persons were injured, and at Moul the damage done was considerable and several persons were killed and wounded. At Petit Canal and Port Louis several persons were killed and a number injured. The villages of Grippon and Lamentin have been entirely destroyed and the lighthouses of Moutoux and Foziloz have been overturned.

The town of St. Louis de Mare Galante has suffered considerably. Governor Morachia arrived at La Pointe a Pitre this morning, and left on Tuesday night for St. Antigua, and left soon afterward for St. Antigua.

THE BRITISH ISLANDS.

News which has reached the Associated Press here from the British Antilles says the island of Timbilla has not suffered much from the hurricane, that St. Thomas and St. Croix suffered slightly, that St. Antigua was seriously hit, and at St. Kitts 200 houses were destroyed.

The hurricane passed over Porto Plata, and appears to have ravaged the north of the Dominican Republic. All communication between Porto Plata and the interior, not including Santo Domingo, is interrupted, and it is impossible to obtain a correct account of the damage done, although it is thought to be important. The railroad from Porto Plata to Santo Domingo is no longer working.

Eventually the hurricane swept over Cape Haytien, with less violence, and therefore with correspondingly less damage.

MRS. PEROT IS REMANDED.

Great Interest Shown in Abduction Case Proceedings.

Associated Press Dispatches by The Tribune's Special Leased Wire.

LONDON, Aug. 10.—Mrs. William Perot of Baltimore, Maryland, charged with abducting her daughter Gladys, was again remanded at Bow street police court today, until Tuesday, but being allowed as previously. At the conclusion of the hearing she was served with a habeas corpus to produce Gladys, returned on the application of William H. Perot, her father-in-law, and returned in the High Court Saturday.

The court was well filled with fashionably dressed people, including the Misses Blood, N. Booth, Solicitor General, Richard, W. H. Perot, St. Messrs. Hodgson and Sumner of the United States Embassy and the lawyers interested in the case.

Mrs. Perot was beautifully dressed in evening embroidered tulle. She appeared at 11:40 o'clock A. M., holding Gladys by the hand. The defendant was much paler and more nervous than on previous occasions.

Counsel for Mrs. Perot said he had only one civil military law was one temporary company barrack wholly destroyed, some quartersmaster property damaged. No personal injuries reported, but all wires are down. No injury to shipping was reported. Two schooners sunk, two sailboats drowned. San Juan lights temporarily disabled.

"Cable reports from Ponce say all shipping is ashore. Custom house shops badly damaged and goods stored there. DARING NAVIGATOR SIGHTED.

Associated Press Dispatches by The Tribune's Special Leased Wire.

QUEENSTOWN, Aug. 10.—The British ship Nelson, Captain Perrin, which sailed from Lytleton, N. S., for London, and which arrived at this port, reports that she passed, July 18th, in latitude 48 N., longitude 12 W., a three-ton cutter, containing one man, steering in the direction of Ireland. The occupant of the boat made no reply to the Nelson's signals. The little craft was proceeding gaily on smooth water. Her name, apparently, was "Great Western" or "Great Eastern."

Howard Blackburn of Gloucester, Mass., got set alone on the afternoon of June 18th last in a little self-sprung four-ton boat, the "Great Western," on a trip across the Atlantic from Gloucester, Mass., to Gloucester, England.

The grumbling which has been indulged in for several days past by citizens who have been arrested on the charge of having been present at the Baumgarten-Bryam prize fight of a week ago, when they were differently engaged in other places, began to bear fruit this morning, when the charge against H. E. Alden was dismissed in the Police Court at the instance of the City Prosecutor, Abe Leach. Yesterday afternoon Mr. Alden called on Chief of Police Hodgkins and expressed himself in no uncertain terms as to the outrage done his feelings in having been arrested on a charge of which he claimed to be innocent. "It is an outrage," he said in conversation with a Tribune reporter, "to be falsely accused of having been present at a prize fight. I do not mean to say that I would not attend a glove contest, and I am willing to admit that I have attended some, but I was not present at this fight. I was told that there was going to be a contest, and I went into the place where the fight took place, but that was long before the fight began. I left there about a minute after going in. That was the last time I was in the place. Now what right has anybody to swear that I was present at the fight? My name has been before the people in the newspapers, and I have been taken away from my business and suffered a number of other annoyances."

When Mr. Alden's case was called in the Police Court this morning, Prosecutor Leach said that he had investigated the charge preferred against Alden and had become satisfied that Alden was not present at the scene when the fight took place. He then moved that the charge be dismissed, and Judge Smith granted the motion.

Another one of the young men of town who is displaced over the notoriety which he has attained as one of the spectators of the affair is Charles Bock, Jr., who is employed in Rosenberg's cigar store on Broadway. At first it was supposed that the name in question was that of a young man of this city who was not present at the fight. Then it was announced that it was not the name of that man but of the gentleman connected with Rosenberg's store, who also stoutly asserted that he was not at the mix-up.

The statement in court of Bock's attorney that he could prove Bock's innocence in a few minutes created a sensation.

This morning Chief Hodgkins detailed Sergeant Green to ask Bock to call to see him. Bock responded immediately and was escorted with the Chief for some minutes. He established his innocence of the charge to the satisfaction of the Chief, and took occasion to express his regret of being arrested on a "crime" of which he was innocent. He declared that he had not been at the fight, and the announcement to the contrary had given him a great deal of annoyance. Later Bock informed his friends that Chief Hodgkins would do all in his power to have the charge against him dismissed and that will be done tomorrow in the Police Court when his case is called for trial.

A great deal of speculation is indulged in as to the outcome of the case and the manner in which they will be prosecuted and defendant. The prosecution will have to prove many other things that the fight in question was a prize fight, something which may not be done without some difficulty, because of the technical proof required. That point having been established, the prosecution will be required to prove that the defendants were present at the bout. It is not likely that any of the accused will give evidence against themselves lest they incriminate themselves. Positive evidence must, therefore, come from the principals, Baumgarten, Bryam, Green, or Perrin, the last two of whom have pleaded guilty.

Meanwhile Church and Garvey, the defendants' attorneys say there is no case against their clients.

A batch of suits for heavy damages will grow out of some arrests made.

DAMAGE SUIT IS NEARING A CLOSE.

The defense in the damage suit of Lorca versus the Western Fuse and Explosives Company this morning finished its side of the case. The court allowed the defense until 1 o'clock this afternoon to put in an amended pleading as far as a disjunctive denial of the allegations of the complaint were concerned.

The attorneys for the plaintiff refrained from putting in any further defense because the allegations in the complaint had not been properly denied. The case may go to the jury late this afternoon.

Nusbaum & Reed represent the plaintiff.

The couple have lived in this city for several years, and have raised a family of children, which are all of age except one. The husband and wife have been conducting a bakery in West Oakland. Mrs. Gilmore complains that her husband destroyed her peace and happiness by continually nagging at her and abusing her. The treatment in the last few years has been growing worse and she has reached such a point now that she asks the court to let her have a separation. She also asks for a reasonable amount of alimony for her support.

RAILROADS GIVE REBATES.

Interstate Commerce Law's Workings Farcical.

Associated Press Dispatches by The Tribune's Special Leased Wire.

CHICAGO, Aug. 10.—The subcommittee of the Federal Industrial Commission convened in open session today and resumed the investigation of the alleged elevator combine. The witnesses who were the subject of hearing.

Edward S. Richards, a retired shipper and grain dealer, made a written deposition to the committee, in which he gave the inner workings of the elevator combine. Mr. Richards made the statement that bills of lading issued by Eastern roads generally are fraudulent and intended to cover up the system of rebating. The witness also declares positively that roads have a system of issuing rebates to favored lessees and owners of grain warehouses, and discriminating against the private and independent buyers and shippers who in this State, according to the evidence presented, have combined in the Illinois Grain Dealers' Association to fight the elevator combine as class A.

The Interstate Commerce Law was also given a farcical and useless effect so far as it affected the rates of interstate commerce regulations of the country.

Mr. Richards also declared that notwithstanding the fact that the Interstate Commerce Commission has authority to punish the pooling agreements of railroads, the pooling system will still exist in existence which keeps up the system of pooling with more circumspection than formerly. As a result of Mr. Richards' statement, Senator Kyle sent a prominent Eastern road for blank forms of the bill of lading used by the company.

THE CLEVELAND BOYCOTT.

Associated Press Dispatches by The Tribune's Special Leased Wire.

CLEVELAND, Aug. 10.—The street car strikers and their friends propose to boycott every man who attended the business meeting held at the Chamber of Commerce yesterday for the purpose of adopting measures to stamp out the boycott.

Petitions have been drawn up and will be sent to the State, it is said, with a view of putting the plan into prompt operation.

The petition sets forth at length that business as such men propose to crush the boycott in their efforts to get rid of their condition. Therefore, the rich men should be boycotted.

Over 500 leading business men attended the Chamber of Commerce meeting and adopted resolutions condemning the boycott and suggesting a large sum to be paid to the strikers on the street car boycott.

There was a marked increase in the number of passengers carried on Big Consolidated cars today.

COLUMBIA VICTORIOUS.

Associated Press Dispatches by The Tribune's Special Leased Wire.

NEWPORT, R. I., Aug. 10.—The conditions were not very promising for the victory of the New York Yacht Club in the third race of the regatta, from this port to Vineyard Haven, Martha's Vineyard. The wind was strong and came from dark clouds in the distance. There was every indication of a squall and the race started at 11 o'clock and the schooners at 11:15.

The Columbia and the Defender got away fifteen minutes later. Defender crossing the line in the windward position at 11:25, followed by Columbia at 11:30.

HE NEARLY LOS HIS LIFE.

Walter Hackett, the well-known young clown, who narrowly escaped from death last night, which struck a four into his heart which he was not able to banish for a number of hours afterward.

He was late in trying to catch the 5:30 o'clock P. M. train at the Fourteenth street depot, and ran to make sure of getting aboard.

As he was about to jump on the platform, he stepped into a hole and fell lengthwise beside the track. The next instant the train started off with a rush, and Hackett lay within a foot of the young man's head.

Hackett realized his danger, but it was not until it would have been too late had he fallen a few inches nearer the rail.

While the train was still moving Hackett rolled in the dust away from the train. When he arose he was covered with dirt and unharmed. He returned home and abandoned his trip across the bay.

Interstate Commerce Law Will Be Considered.

Associated Press Dispatches by The Tribune's Special Leased Wire.

DENVER, Aug. 10.—The eleventh annual convention of the National Association of State Railroad and Warehouse Commissioners opened at the Brown Palace hotel in this city today, thirty-one delegates being represented by about 100 delegates. George J. Lindley, chairman of the Illinois Board of Railroad and Warehouse Commissioners, is president of the Association, and Edward A. Mosley of the Interstate Commerce Commission is secretary.

President Lindley called the convention to order at 10 o'clock and delivered an address. The following matters will be taken up in the order mentioned: Construction and operation expenses; statistics, uniform classification, powers, duties and work of railway committees, legislation, the enforcing of orders, safety appliances, grade crossings and plans for ascertaining the fair valuation of railroad properties.

The convention is expected to take some action toward petitioning Congress to revise the law that the Interstate Commerce Commission may have authority to create rates and enforce their stability.

Three members of the Interstate Commerce Commission, Chairman M. C. Nease and J. E. Mosley are in attendance at the convention. Ex-Senator John S. Reagan, father of the bill which created the Interstate Commerce Commission, is also present.

The Association of American Railway Owners and Operators held its annual meeting in conjunction with the other associations, rendering valuable assistance in the matter of railroad statistics and other data.

Keenan of the St. Louis Catholic diocese will stand firm against the petitioners of St. Patrick's Church in East St. Louis who are seeking recognition of the church as a parish. A building will be erected in the parish, and the church will be placed in charge, and the old St. Patrick's Church will be no longer recognized as a place of worship by the bishop.

The bishop will not go to law to obtain possession of the old St. Patrick's Church property.

LANDIS KILLED FOR HIS MONEY.

SACRAMENTO, Cal., Aug. 10.—The Evening Bee's special from Lincoln, Fla. county, this morning, states that the two men who were arrested last evening on suspicion in connection with the murder of Frank Landis, have been discharged. Their names are P. Whitmore and J. Ager, employed at the Lincoln Hotel. They were paid off with the small amount of money which the murderer left this bundle outside which he induced Landis to enter the store to supply some article of merchandise. The store had taken in considerable money from the country workmen that night, and the fact that Ager, who was arrested, stood on top of the safe was found lying on the floor, induces the belief that an effort was made to compel Landis to open the money box.

The shot from Landis' revolver was caught in the ceiling, while the shot which killed him was removed from his back. Several persons at Lincoln declare this morning that three strangers were in the saloon where Landis played a game of billiards half an hour before he was shot, and that when Landis rolled in the dust away from the train, they were the strangers who followed after the young storekeeper.

Rumors of a Change of Commanders in Philippines.

Associated Press Dispatches by The Tribune's Special Leased Wire.

WASHINGTON, Aug. 10.—Major-General Miles had a conference of more than half an hour with the Secretary of War today. Secretary Root said that the conference was devoted to military matters, but would not speak definitely as to their character. When it was suggested that there were rumors that he was consulting General Miles with reference to a change of commanders in the Philippines, he said he had nothing to say on that subject. It is known, however, that General Miles brought up the recent order of Secretary Alger regarding the Inspector General's department. That portion of the order which places the bureau under the direction of the Secretary of War and omits the commanding General of the army, was the case in the former regulations, is not satisfactory, it is said, to General Miles.

TO FIGHT THE LIQUOR TRAFFIC.

Associated Press Dispatches by The Tribune's Special Leased Wire.

CHICAGO, Aug. 10.—The second day of the annual Catholic Total Abstinence Union of America convention opened with an early mass at the Cathedral of the Holy Name in honor of the members who have died during the year. Father Brian of Ohio delivered the address of the annual convention, while Father Hadden of Chicago was Jacobson, Father Shanley of Hartford, Conn., sub-deacon and Father Ryan of Chicago acted as master of ceremonies.

Resolutions of the convention were taken up when the session was called to order today.

Philadelphia was chosen as the next place of meeting. The session was an address by Archbishop Ireland, in which the distinguished prelate emphasized the Bessons of Indianapolis, who has been prominent in Catholic temperance work for a generation, and who was present. The Archbishop's address was devoted to enlist the efforts as well as the subscriptions of their friends in the work of fighting the liquor traffic, and concluded by urging that steps be taken for the preparation of a history of the Catholic Total Abstinence Union of America, so that the crusade against the saloon might be renewed at the beginning of the twentieth century.

The suggestion was adopted, and a committee of five was appointed to prepare for publication a history and report at the convention next year. Archbishop Ireland was elected a member of the committee. At the afternoon session the report of the committee on Resolutions was returned. The election of officers took place this afternoon.

NO FIGHTING OF IMPORTANCE.

The American Troops Reconnoiter Near Angeles.

Associated Press Dispatches by The Tribune's Special Leased Wire.

MANILA, Aug. 10.—The U. S. Office reports this afternoon that the scene of the recent fighting with the Filipinos say the day was spent in reconnaissance, during which the American troops found a few of the enemy. But there were no engagements of importance. A battalion of the Seventeenth Infantry, under Major O'Brien, advanced very close to Angeles. The Major reports there are about 200 insurgents there. A battalion of the Twelfth Infantry made a reconnaissance in the direction of Porac, but the enemy there scattered.

The main body of the American army is at Calumpit. The lines have been lengthened materially since the advance was stopped yesterday, and now includes the towns of Guana and Santa Rita.

Major General Otis today issued an order closing the ports in the hands of the insurgents to inter-island traffic. Again, also issued a decree July 24th, dated from Taclo, closing the insurgent ports to vessels flying the American flag and inviting vessels under foreign flags to visit them. Visitors under foreign flags cannot traffic with these ports without running the blockade.

The gunboats Concord, Yorktown, Callao and Pampana, bombarded San Fernando Tuesday. The Filipinos replied with cannon and musketry for an hour, and then fled to the hills, the gunboats firing on them with machine guns as the rebels disappeared. The bombardment was continued for some time afterward, and many houses were riddled and destroyed, but the town was not set on fire. The gunboats did not land men. The rebel losses are not known.

The United States transport Sheridan left for some of the men of the South Dakota Regiment, 996 of the Minnesota Regiment and 205 men discharged from various organizations.

NO FEAR FOR OUR WARSHIPS.

WASHINGTON, Aug. 10.—No additional news of the West India hurricane was received at the Navy Department this morning. All the naval vessels in those waters are undoubtedly safe. The only ship, therefore, which is unaccounted for is the New Orleans, and no fears are entertained on her account.

Ward, the wife of a lineman in the employ of the Sunset Telephone Company, swallowed by mistake yesterday morning a mixture of glycerine and iron containing a few drops of carbolic acid. The acid burned her mouth slightly, and Mrs. Ward, not knowing how powerful the poison might be, was badly frightened and believed that she was fatally poisoned. Dr. Hongstad was called immediately and found her no danger whatever. The mixture he pronounced so weak that the whole beautiful might have been swallowed without fatal results.

STATE UNIVERSITY.

STATE UNIVERSITY, Aug. 10.—D. Alex Gendeker of the class of '01 has returned from a trip to Sonoma county. WILL RESIDE IN BERKELEY.—William Morris Thayer, head mathematician professor at Butler University, Indiana, for thirty years, has resigned and is coming to the Pacific Coast to live. He was associate professor with Dr. Jordan of Stanford for years. He is the youngest of the Thayer family, and will reside in Berkeley. He has a son who will enter the University. Dr. Maria Thayer of San Francisco is his brother.

DESIGNS NOT SAFE.—The secretary's office at the University decided that South Hall was not a safe place in which to store the valuable plans now being received in the Phoebe Hearst architectural competition. The plans already here are valued at thousands of dollars, and many more designs, equally valuable, are expected to arrive in a few days. They are very bulky, and in case of fire in South Hall practically nothing could be done to save them.

Bernard R. Maybeck of the University, who was sent to Europe by the Regents to take charge of the plans, received instructions this morning from Regent Reinhold to store the designs in the vaults of the local bank. The removal was made this afternoon and the designs are now safe in the fireproof vault.

U. C. CADETS.—Professor Frank Soble, commandant of the University Cadets, announced today to regular orders No. 1 the appointment of Captain J. R. Moulthrop of Company A as acting major and inspector of the battalions with the command and supervision of the corps in the field.

The order confirms the appointment of temporary captains and first lieutenants made at the end of last year, and on account of the marked excellence shown by the cadets will not be required to take any qualifying examinations. Other temporary appointments will be required to take the competitive examinations, which will also be open to those desiring promotion. The examinations will be held at 11:15 A. M. Monday, August 21st.

CENTERVILLE.

CENTERVILLE, Aug. 10.—Heavy shipments of pears, peaches, and prunes are still going on daily.

A letter from Rev. E. P. Shier reports him as on the way home. After leaving Lake Tahoe last Thursday his party was caught in a rain storm which prevented him from reaching the city for several days. No ill effects came from their wetting and all are working hard to satisfy their good appetites.

An item from the editorial column of the Fresno Democrat reads: "It has been proposed to adopt a uniform for postmasters viz, white blouse with gold straps, blue trousers with red stripes, white skull cap with silver star in front." We would suggest that all postmasters be fitted with dresses.

It is probable that each member of the club will constitute himself a committee of one to interview the other property owners to Fourteenth street.

It is probable that Emeryville will also be included, although the residents of that town will probably have to pay for the improvement out of their own pockets.

NEW CLUB FOR NORTH END.

Want San Pablo Avenue Put in Good Condition.

An improvement club to consist of all the residents and property owners on San Pablo avenue from Fourteenth street to the northern city limits is the latest step in the line of local progress.

The proposition was broached by Captain McKenney at the meeting of the Property Owners' Improvement Club of Golden Gate. This club at present consists solely of property owners residing on San Pablo avenue between the towns of Emeryville and Berkeley.

It is extremely desirable that the avenue be improved, but that as the highway is one of the main arteries of Oakland it is only right and proper that the cost should be borne in part by the city treasury.

The best way to bring about this result would be to organize all the residents and property owners into an improvement club which, of course, would be an extension of the present organization.

It was decided that each member of the club will constitute himself a committee of one to interview the other property owners to Fourteenth street.

It is probable that Emeryville will also be included, although the residents of that town will probably have to pay for the improvement out of their own pockets.

The next step will be the calling of a meeting.

THURSDAY, AUGUST 10, 1899.

A primary election is no longer a secondary consideration in politics.

The trading stamp has got in its last few ticks and has joined the silent majority. The Merchants' Exchange can add another scalp to its belt.

Even Louisville, Kentucky, has joined the list of cities that are organizing for municipal water supply. They really need it down there to drink afterwards.

Out of the 2,000 votes cast in San Francisco last Friday night were Populist. It is impossible for the long-whiskered fraternity to hold forth there—the winds are too severe.

While Walter Astor appears to become a knight over in Merce England, we don't care what happens to him. It has had his day here, and we are through with him.

General Wheaton says that he proposes to make Aqueduct No. 2 start as soon as he gets anywhere near where the insurgent leader is camped. It is to be presumed that that particular constellation will consist of shooting stars.

The second chapter of the war in the Philippines opens up as a continuation of the first. For MacArthur's splendid victory shows that it is merely a case of catching up with the splendid rebels. There is never any question as to the outcome of the set-to.

Dispatches to the Chronicle announce that the remains of a monster dinosaur of Jurassic times have been discovered in Wyoming. It is well that the trular dereliction is so complete, for otherwise some people might have been puzzled for the moment as to just what animal was meant.

The Fresno Republican says that it is time to "call a halt" on the stock speculation encouraged by the old folks in the San Joaquin. Yes, and to call a halt for the unscrupulous rascals and promoters who are cheating credulous people out of their money by the same barbed methods that were in vogue at the time of the Klondike excitement.

Colonel Dulac's cablegram from Nagasaki removes the last element of doubt as regards the movement of the California troops. They left the Japanese port yesterday, and as the trip can be comfortably made in seven days by a transport as speedy as the Sherman, they will be due at San Francisco on the 25th, or allowing for the schedule by which they are to reach the Philippines at noon, a day later. All arrangements for the celebration can therefore now become definite, and to those engaged in canvassing and so forth it is needless to remark that there is not a minute to lose.

THE PUBLIC HOLIDAY.

The suggestion made by THE TRIBUNE last week that the Governor declare a public holiday in honor of the return of the California Volunteers has taken hold for the Joint Committee of the Senate and Assembly. Draftsmen in charge of the celebration arrangements across the bay has responded to the idea and is making a dash to carry it into effect. The call is also lending its efforts in the direction, and in view of the favorable manner in which the proposition has impressed the public, it is more than likely that the Governor will accede to the request.

The question of which would be the best time for the holiday has been raised, and some are of the opinion that instead of having it upon the day the troops are landed it would be better to defer it until the day after. Their point is that on the day of landing, few employers will insist on a full day's work from their employees, and that a half holiday will therefore result anyhow. To have the next day a legal holiday would, it is claimed, be a much better arrangement, under the circumstances.

Scarcely so. While business men are willing to make concessions to the occasion, it is too much to ask them to suspend their operations for practically two days. It would be infinitely preferable to continue everything in the holiday line to one day and let the festivities commence with the landing of the troops in the morning and conclude with the triumphal march and fireworks in the evening. To such a program no one could demur, and there is little doubt that the Governor will declare the day exempt from toll if the situation is presented to him on those lines.

REPUBLICANS NOT ROUTED.
Because the Democratic ticket secured 9,000 more votes than were cast for the Republicans at the primary election across the bay, many are inclined to the belief that the Republicans are in a hopeless minority there as regards the prospective municipal election, and the Democrats are already gathering around the festal board and arranging how they will distribute among themselves the loaves and fishes of the November contests.
It may, however, be a case of counting chickens before they are hatched, for an examination of the vote reveals a number of important circumstances that do not appear on the surface. In many of the districts which are conceded to be strongly Republican the vote is comparatively light, whereas throughout the entire city it is apparent that the Democrats turned out in strong force. Then again, there are evidences that in a number of instances the Kelly-Crimmins combination diverted votes to the Buckley ticket from its own ranks on the assumption that the proposition that it had more than enough strength to establish its own cause and was willing to divert the overflow to defeating Philbin in his own party and thus obtain a double victory.
It certainly is not reasonable to suppose that a city that only last November gave a majority of 5,300 to the Republican candidate for Governor would in so brief a time so completely reverse its political complexion as to swing the pendulum 1,000 votes in the other direction. Republicans can therefore take heart in the belief that the situation is not as black as appears at first sight. As a matter of fact, the victory of the anti-boss ticket in their own party equals things to a great extent. If they place at the head of their ticket a man in whom the people can confide as implicitly as in Philbin there is certainly no reason why he should not win a majority of the vote. In that event the city is likely to divide on party lines, and the Republicans would have nothing to fear, judging by past political experiences. They should therefore enter the municipal fight with full as much confidence as their opponents, for if they put the right man at the helm there is no reason why they should not win.

Com. Paul's Transvaal constituents may be expert at "filling" the pockets of all the Unhinders who venture in their midst, but they don't seem to be very "smooth-beers" judging by the blundering way they are handling the present complications. They should surely have sense enough to see that it is far better to make the concessions demanded from them than to have the power of granting favors taken away altogether.

To those who are so busily announcing that there is no occasion for anyone to be employed nowadays the question may be put, what are the San Francisco bosses going to do? Their occupation is idle hands.

MY NEIGHBOR'S VINE.

O vine, my neighbor's vine, I know
The ruthless law which you obey
In leaving lone the space whereon
He planned to see your shadow play!

O vine, altho' cold Reason says
Allegiance to him you owe,
I know I ne'er can shut you out,
I love you so, I love you so!

In vain my neighbor turns you back
And binds you in the narrow bound
He gives to you. He gives his best;
And still your tendril e'er are wound
To reach toward me, who have no right,
Save that of greater love, I know
You can but come to me, O vine,
I love you so, I love you so!

—Mary Norton Bradford in Boston Globe—

—Furness of the Smiler—

Beware of him who runs to meet
You with a pleasant smile;
Shake hands with him and treat him
well,
Because the chances are that he
Will have a little note
He wants you to endorse, or that
He's fishing for your vote.

In the Moonlight.—
Once, Della says, she loved the moon,
For when it shone we'd stroll and spoon
Now 'tis approved on different ground—
In moonlight burglars don't come around.
